

Six Points Intersection Improvements (Capital Improvement Program)

**Council Presentation
March 19, 2019**

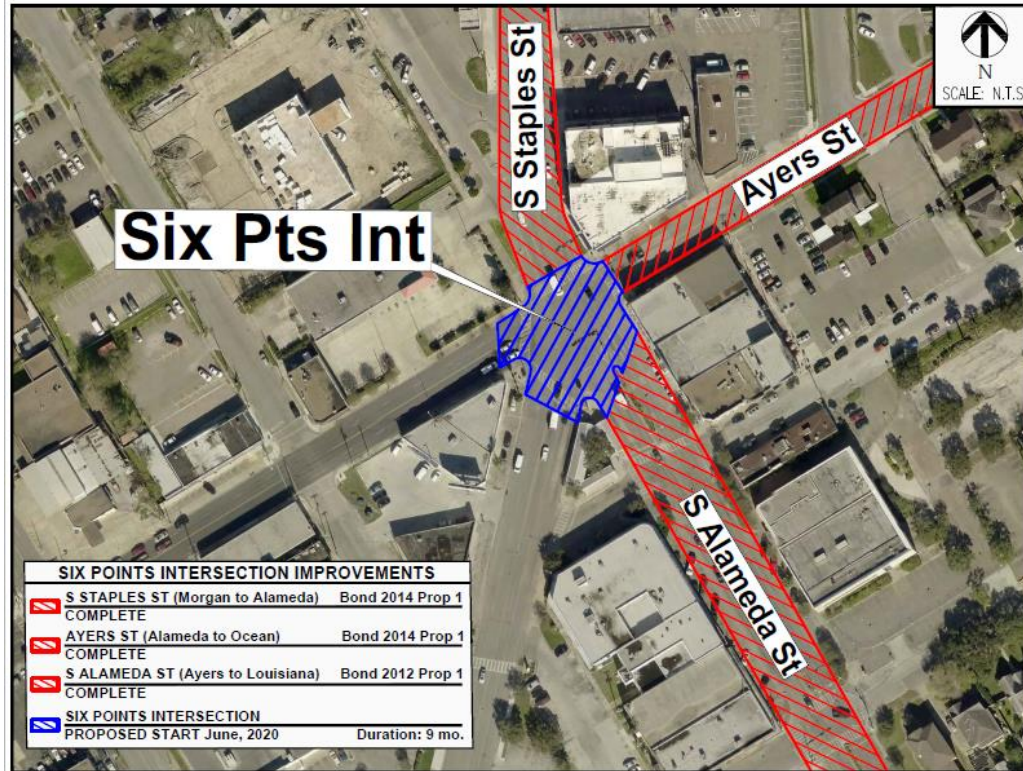

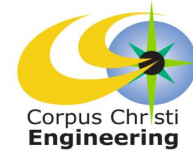

Project Location

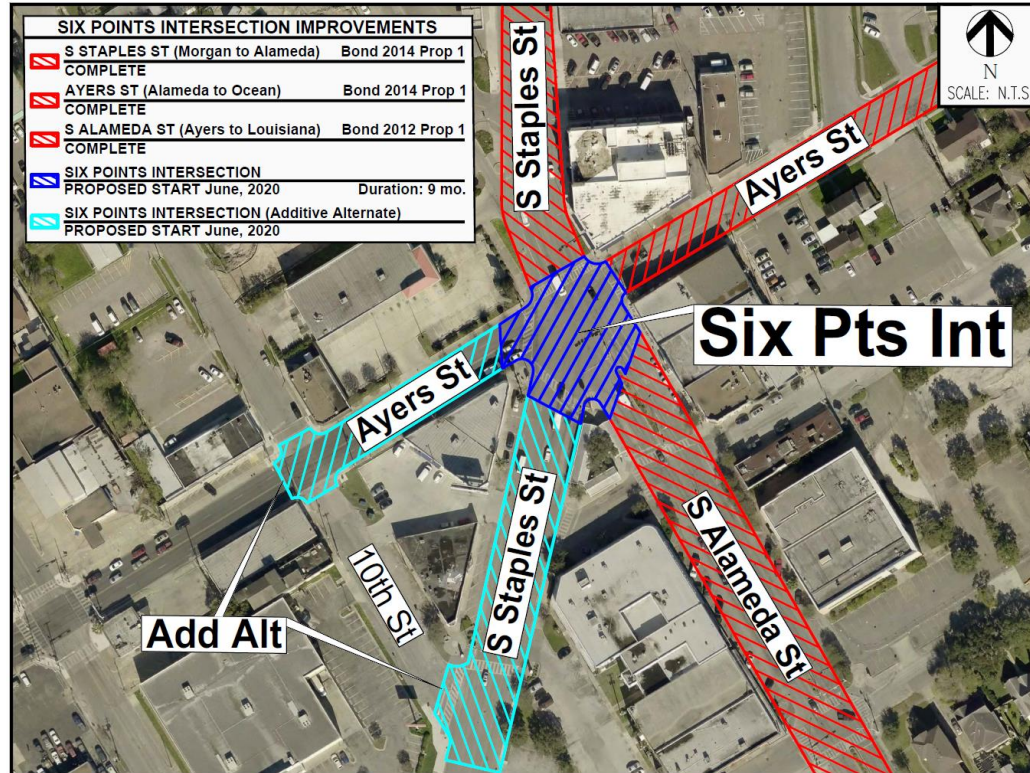

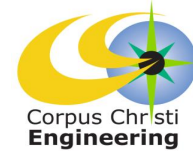

Project Vicinity

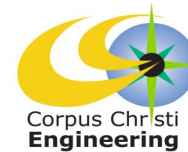

Project Vicinity

Project Scope

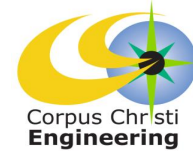

This project proposes to implement full rehabilitation of the intersection and, as an additive alternate, the immediate street sections. Provides for the engineering, design, bid and construction phase support services with the following:

- Detailed analysis of the traffic loads, counts with future projections
- Adjustments to roadway alignment and traffic signalization
- Pavement analysis and recommendations
- Detailed utility investigations and recommendations to ensure the sustainability of the services and underground infrastructure
- Public meetings
- If reconfiguration is recommended, public outreach and workshops
- Construction sequencing and temporary traffic control planning
- Other miscellaneous improvements, including signage, lighting, landscaping, etc.

Project Schedule

2019												2020												2021	
M	A	M	J	J	A	S	O	N	D	J	F	M	A	M	J	J	A	S	O	N	D	J	F		
Design										Bid			Construction
