

# **Elevator Modernization Multiple Locations (Bond 2018, Propositions D, E, & F)**

**Council Presentation  
June 11, 2019**

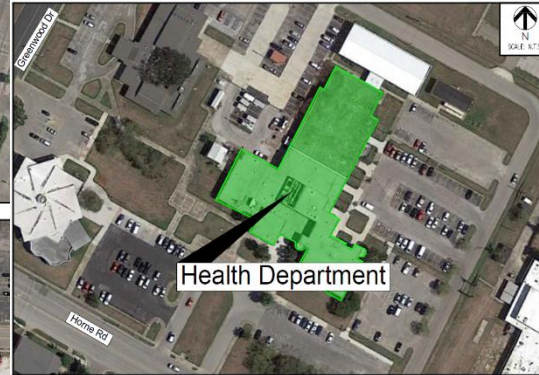

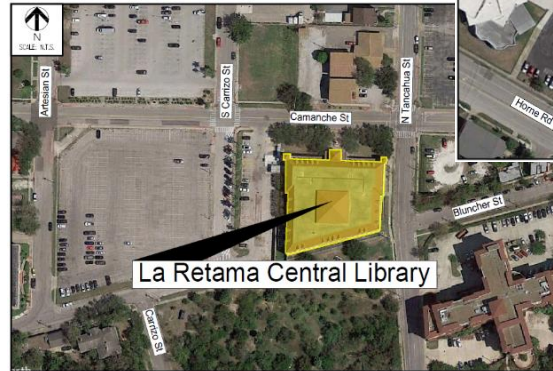

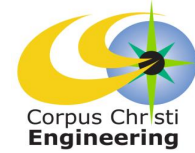

# Project Location

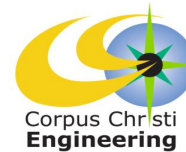

# Project Vicinity

# Project Scope

Provides engineering and design elevator modernizations to address outdated equipment and changes to meet International Building Code and Life Safety Codes. Scope of services includes:

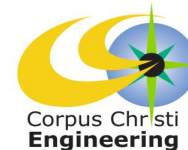

- Conduct field investigations and testing on elevator systems
- Current technology evaluations with availability and compatibility for retrofit
- Analysis and prioritized recommendations for proposed improvements
- Bid phase technical and administrative support
- Construction phase technical and administrative support

Elevator upgrades address the following components:

- Mechanical/Electrical Components
- Speed and Location Controllers
- Hydraulic Power Pump Units
- Slow, Stop, and Leveling Systems
- Floor and Direction Indicator Buttons
- Safety Equipment
- Interior and Exterior Lighting
- ADA Features
