Corpus Christi International Airport update on Operations, Air Service Development and Operational adjustments due to COVID-19

STAFF PRESENTER(S):

<u>Name</u>	<u>Title/Position</u>	<u>Department</u>
1. Kevin Smith	Assistant Director	Aviation
2. Tyler Miller	Assistant Director	Aviation

ISSUE:

A presentation by Airport executive leadership providing a COVID, Air Service Development, and Personnel update.

BACKGROUND:

In April of 2020, the city hired two new Assistant Directors of Aviation, just as COVID began to affect our community. The Airport department would like to provide regular updates on airport operations twice a year on the on-going operations and air service development initiatives that are taking place. This presentation will outline how the Corona virus has de-railed the travel industry and what operational adjustments have been made so far, to help us recover faster than other cities/airports. The presentation will also include information about our air service development initiatives, a personnel and construction update, and our digital marketing campaign. No action is required by City Council.
