If you applied for multiple boards, which boards are you most interested in serving on, in order of preference? (Limit to top three)

Persons with disabilities

Why are you interested in serving on a City board, commission or committee?

I'm interested because I've lived in this community my whole life. While the city grows I've grown with it. Lots of changes have been made but still alot more need to be done. I recently was in ms wheelchair texas 2020 and won ms congeniality. While doing that I learned of alot of needs my city has rather than wants as far as side walk repairs for the disabled. More communication in the bus routes and more accessibility with more than one park for person with disabilities.

OBJECTIVE: A position with your company offering challenge, responsibility and advancement as merited.

EDUCATION:

1965-1979 **Brownsville High School, Brownsville, Texas**
Del Mar College, Corpus Christi, Texas
Associate Degrees in Applied Science; Industrial Management, and Mid Management

EMPLOYMENT:

2003-██████████ **Defense Logistics Agency. NAS Corpus Christi**
2013 Primary responsibility was with the packing Department. *SEE Attached -*

1987-2003 **Reynolds Metals Co. Portland, Texas**
I started out as a labor and did everything from shoveling mud to tying ocean-going ships to our dock. Once the position of evaporator operator was available I bid on that position and received the job and was operator for ten years. Then the position of heavy equipment operator came up and I bid on it and was successful bidder and stayed at that position for three years. The job of evaporator operator was to make condensate operating nine evaporators and discharge the condensate to the powerhouse for the generators. Heavy equipment operator was mainly operating bulldozers and front loaders supplying the rotary mills with bauxite.

1985-1987 **Warehouse Manager, Texas Marine & Industrial Supply**
Corpus Christi, Texas
Managed warehouse, supervision of warehouse personnel, responsible for one-half million-dollar inventory. The inventory consisted of frozen food, fresh produces, canned goods and dry food, which was for the ocean going ships and drilling contractors, also, commodities for the refineries and industrial customers. My prime duties were to assure everything was rotated properly and all freezers were maintained and proper temperatures were maintained. Records on all equipment were up to date and all personnel processed orders accurately.

1984-1985 **Senior Purchasing Agent, GHR Energy Corp.**
Laredo, Texas
Purchased all commodities of material connected in a gas processing plant. Material consisted of pipe, valves, and fittings.
Major expenditures like pumps, transportation, and process motors was also my responsibility as was assisting the warehouse operation.

1970-1984 Parts and Purchasing Manager, Energy Industries (B.D.Holt)

Started as truck driver and worked up to manager in charge of purchasing all commodities required to build a skid mounted gas compressor from the ground. I was also responsible for warehouse, which housed these parts and the ten people necessary to fill the needs. We also exported Caterpillar parts, which went overseas and had to prepare everything from the waterproof box to the necessary paperwork to export parts.

Eddie Pettijohn
cont.

2003-2013 Defense Logistics Agency

packaged helicopter parts for shipment to other repair shops or to be placed in stock.

Transferred to receiving department with twenty other employees receiving helicopter parts from all over the world.

Worked at night as work leader with five people reporting to me. Working at night we cut the workload down as not as many interruptions at night.

Helicopter engines and transmissions is last spot I worked. This job was to open the container which the assets were in. We verified serial number and models were exact. Once the paperwork was verified the asset was put back in the container and preserved for storage.
