Describe Feedback:	I would like to comment in writing below: Both the Water Rights Permit and the Waste Water Discharge Permit to build a 20 MMGD Desalination Plant on inner Harbor should be denied due to the detrimental effect on the CC Bay ecological systems and the socio-economic problems that would be created by this plant being built with its huge construction cost, not to mention the gigantic

operating costs to operate, maintain and administer this project, of which the largest cost to operate would be that associated with the electrical energy consumption of this operation. This in itself raises other major huge issues such as:

1. How will the electrical energy be generated?
2. Will there be a dedicated new infrastructure grid for this added generated energy? or;
3. Will the generated energy be integrated to an existing grid?
4. How will this added electrical energy be distributed?
5. Who will pay for this. What will the impact be on water/electricity bills?

Topic	Homeless Crisis
Describe Feedback:	The city of Corpus Christi needs to come together as a community and help one another, regardless of their status. We're all humans who share the same survival requirements: food, water, and shelter. Cities across America are taking part in helping to better their community by creating "tiny home villages for the homeless". Not only will this help take a great percentage of the homeless off the streets, but it will also give them a sense of dignity and comfort. In south texas, the weather conditions

are horrible. The homeless can die from heat stroke or dehydration. From the community, we are asking you to have a sense of empathy. Tiny houses are cheap, and keep the homeless off the streets - making the streets safer for all. As I have talked to many homeless individuals, they don't like the homeless shelters that are already around the area. They say they feel unsafe, and they're usually unsanitary. Don't forget that Corpus Christi was ranked amongst one of the most dangerous cities.

Topic	Gratitude
Describe Feedback:	Councilpersons, you have worked very hard and my husband and I appreciate your service. We are also very very grateful for the City Staff and their dedication to our City. Water's Edge has been enjoyed by many these past weeks and the new signage has an 'edge' to it. It's been very clean and well-maintained. We know the City is monitoring the palm trees and other plants, but we do hope that some native shade trees are planted if some

need to be replaced.

We drove to the Corpus Christi Symphony last weekend and used Ocean Drive. It is fantastic! Morgan Street is coming along too. Our Public Works Department is to be commended.

Many people are using the Libraries, especially curbside and digital services like Hoopla. Some users get frustrated with online availability and tell me they wish to have more access to online books. I let them know that it would require more funding.

Budget for FY2021-22 is upon us. Keep up the good work and reward those hardworking city employees.
